EB-2025-0102 Total Cost Benchmarking, April 23, 2025
EB-2025-0108 Spending Pattern Analysis, April 24, 2025

Issues:

Members and supporters of Energy Probe are customers of Enbridge Gas. The rates they pay will be impacted by the outcome of this proceeding.

Policy Interests:

Energy Probe believes that gas consumers should not be forced to subsidize political objectives such as energy transition or indigenous reconciliation. In particular Energy Probe's policy interest will be focused on the following issue.

Does the 5-year gas supply plan appropriately address the gas supply plan criteria set out in the OEB's Framework for the Assessment of Gas Distributor Gas Supply Plans (Framework): d. Achieving public policy objectives

Hearings:

Energy Probe has no good reason for having a specific form of hearing.

Evidence:

Energy Probe does not intend to file evidence in this proceeding.

Coordination with Other Intervenors:

Energy Probe intends to coordinate its work with other intervenors to avoid any duplication of interrogatories or questions during the technical conference or the hearing.

Cost Awards:

Energy Probe is a non-profit organization which relies on individual donations to help protect the interest of its members and supporters. Without the prospect of an award of costs, Energy Probe's ability to participate in consultations would be limited. Energy Probe intends to seek a cost award for its participation in this consultation. As an organization representing the direct interests of gas consumers it meets the eligibility criteria set out in the Ontario Energy Board's Rules of Practice and Procedure and its Practice Direction on Cost Awards.

Energy Probe's participation and cost eligibility for the May 15th stakeholder conference for this proceeding was previously approved. Energy Probe had incorrectly assumed that it did not have to file an intervention form until the OEB issued PO. No.1 on June 17th. Energy Probe apologizes for its late intervention and cost eligibility request and hopes that the OEB will approve it.

Language Preference:

Energy Probe intends to participate in the English language.
