To Whom It May Concern:

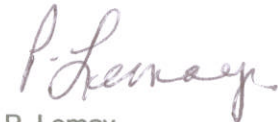

Re:EB-2008-0272

Please be advised that I strongly reject any thought of an increase in hydro. Any organization that can pay the exorbitant amounts to their employees while putting the public at large in financial jeopardy should not be able to be part of the government for the people.

Government and their employees have forgotten that their pay cheques come from the people they service. Reorganization and cutbacks are the name of the game today. Please try to conform to what is required in this financial time of trouble and find another way to finance.

Realize people are loosing their jobs at such a rate that any more of this lack of concern from those who are supposed to be our economic trustees will most assuredly equate to being regarded as a government in the same category as that of those governments who suppress their citizens.

Yours sincerely,

P. Lemay,

cc  
Mr. Glen MacDonald  
Premier McGinty
