Subject: EB-2025-0149 - Review of the OEB's Filing Requirements For Electricity Transmission Applications - Chapter 1 and Chapter 2

Hello everyone,

I hope you are doing well.

We are writing to provide clarification regarding the redline version of the proposed changes to the Chapter 1 and Chapter 2 Transmission Filing Requirements (EB-2025-0149), which was shared as part of the consultation materials (Appendix B to the OEB's June 5, 2025 letter).

Please note that the redline was provided as a convenience to assist stakeholders in identifying changes. However, it is not a "true" redline and may not capture all additions or deletions with complete precision. For full accuracy, stakeholders should refer to the clean draft version of the proposed updated Chapters 1 and 2 (Appendix A to the June 5, 2025 letter).

We encourage stakeholders to submit their first round of comments in accordance with the timelines established, or as soon as possible. OEB staff will be proceeding with its analysis of comments as they are submitted.

Thank you for your continued engagement.

Tina
