**Attention: Nancy Marconi, Registrar**

Dear Ms. Marconi:

**Re: [REDACTED] – Notice of Proposal under Section 81 of the *Ontario Energy Board Act, 1998***

We are counsel to [REDACTED] (the “**Applicant**”). The Applicant is a subsidiary of an investment fund managed by [REDACTED].

On behalf of the Applicant, please find enclosed a Notice of Proposal being submitted to the Ontario Energy Board (the “**Board**”) pursuant to section 81 of the *Ontario Energy Board Act, 1998* (the “**OEB Act**”). As described in the attached Notice of Proposal, the Applicant intends on purchasing a [REDACTED] ownership interest in the [REDACTED] (the “**Project**”) from [REDACTED] [REDACTED] (together, the “**Sellers**”) (the “**Proposed Transaction**”). The Project is a [REDACTED] MW wind generation facility located in [REDACTED], Ontario.

The Applicant and the Sellers are in the process of finalizing arrangements for the Proposed Transaction and wish to close the Proposed Transaction as soon as possible, and in any event prior to September 30, 2025, subject to the Board’s determination that the transaction does not require a review under section 81 of the OEB Act. Accordingly, the Applicant respectfully requests that the Board expedite its review of the Notice of Proposal and issue a “no review letter” by September 15, 2025.

The Applicant and the Sellers are in the advanced stages of negotiation of a definitive purchase and sale agreement with respect to the Proposed Transaction; however, such an agreement has not yet been executed and delivered by the parties. As a result of the Sellers’ strong desire to complete the Proposed Transaction prior to September 30, 2025, the Applicant was required to submit its Notice of Proposal prior to the execution of the definitive purchase and sale agreement in order to allow the

DAVIES

Board sufficient time to review and consider it, and to issue a “no review letter” sufficiently in advance of the targeted closing date. Consequently, as commercial negotiations are ongoing, the Applicant requests pursuant to Rule 10.01 of the Board’s Rules of Practice and Procedure that all parts of this Notice of Proposal dealing with the Applicant, the Sellers, the Project, and any affiliates thereof be treated as confidential until such time that the Applicant notifies the Board that the purchase and sale agreement for the Proposed Transaction has been signed. Disclosure of the Proposed Transaction prior to the execution of a definitive agreement could interfere with the parties’ negotiations. In addition, the Sellers are wholly-owned subsidiaries of [REDACTED], a publicly traded company on the New York Stock Exchange (Symbol: [REDACTED]), and in order to comply with its obligations under securities legislation, confidential treatment of the Notice of Proposal is required to ensure that news of the Proposed Transaction is not made available to members of the public prior to its general dissemination by [REDACTED] by way of press release.

To facilitate this request, and in accordance with the Board’s Practice Direction on Confidential Filings, the Applicant has provided both redacted and un-redacted copies of this cover letter and the Notice of Proposal for the Board’s consideration. The Applicant is simply requesting confidential treatment until such time as a definitive purchase and sale agreement for the Proposed Transaction has been executed and announced by [REDACTED]. We trust that the Applicant’s Notice of Proposal will continue to be processed while the Board considers this confidentiality request. We confirm that following [REDACTED]’s announcement of the Proposed Transaction, the Board will be free to publish this Notice of Proposal and, following its decision in relation to the Notice of Proposal, to publish its full decision in accordance with its customary practice.

We ask that the Board please direct all communications regarding the Notice of Proposal to both the Applicant at the address provided in the enclosed Notice of Proposal and to counsel at the address provided above.

Yours truly,

Robyn Barabash

**2.1 Effect on Competition**

2.1.2	Describe whether the proposed generation output will be primarily offered into the IAM, sold via bilateral contracts, or for own use.  N/A	
2.1.3	Provide a description of the generation including fuel source, technology used, maximum capacity output, typical number of hours of operation in a year, and peaking versus base-load character.  N/A	
2.1.4	Provide details on whether the generation facility is expected to be a “must run” facility.  N/A	
2.1.5	Provide details of whether the generation facility is expected to serve a “load pocket”, or is likely to be “constrained on” due to transmission constraints.  N/A	

**2.2 System reliability**

Section 2.2 must be completed by applicants who are claiming that the proposed transaction or project is required for system reliability under clause 82(2)(b) of the Act.

2.2.1	Provide reasons why the proposal is required to maintain the reliability of the transmission or distribution system. Provide supporting studies.  N/A	
2.2.2	Discuss the effect of the proposal on the adequacy (ability of supply to meet demand) of supply in the relevant control area or distribution region, citing effects on capacity plus reserve levels in comparison to load forecasts.  N/A	
2.2.3	Discuss the effect of the proposal on the security (ability of supply to respond to system contingencies) of supply.  N/A	
2.2.4	Provide a copy of the IMO Preliminary System Impact Assessment Report, if completed, and the IMO Final System Impact Assessment Report, if completed. If the IMO is not conducting a System Impact Assessment Report, please explain.

Please refer to Section 1.5.1 for further details.</b></p>	
3.1.3	<p>Provide details of whether the generation facility is expected to serve a “load pocket”, or is likely to be “constrained on” due to transmission constraints.</p> <p><b>The Project offers energy into the IAM in accordance with the PPA and is not expected to serve a “load pocket”. Further, the generation facility has a fuel source of wind and is therefore not capable of being constrained on.</b></p>	
3.1.4	<p>Provide details on whether the generation facilities are expected to be “must-run” facilities.</p> <p><b>The Project is not expected to be a “must run” facility.</b></p>
