Dear Ritchie Murray:

**Re: ERTH Power Corporation (ERTH Power)
Application for 2025 Distribution Rates
OEB File Number: EB-2024-0021**

On July 8, 2025, the Ontario Energy Board (OEB) issued its Decision and Order regarding ERTH Power's funding request for an Incremental Capital Module (ICM) to support the purchase of property, design, construction, and furnishing of a new administrative and operational facility.¹ In its Decision and Order, the OEB directed ERTH Power to file a Draft Rate Order (DRO) with the OEB and serve it on all intervenors. The DRO was to include a proposed Tariff of Rates and Charges for each rate zone, consistent with the OEB's findings, along with revised ICM models reflecting the updated ICM funding. ERTH Power was also required to provide customer rate impacts and detailed supporting information for the final rate calculations.

In accordance with the OEB's direction, ERTH Power submitted its DRO on July 22, 2025.² This submission included updated ICM models, proposed Tariff of Rates and Charges for the Main and Goderich Rate Zones, and associated ICM bill impact calculations. ERTH Power stated that the DRO fully aligns with the OEB's Decision and Order and that all required changes have been implemented as directed.

OEB staff has reviewed the ICM models and bill impact calculations submitted by ERTH

¹ [EB-2024-0021, Decision and Order for rates effective May 1, 2025](#)

² [ERTH Power's Draft Rate Order, July 22, 2025](#)

Power for both rate zones. OEB staff submits that the DRO appropriately reflects the OEB's Decision and Order.

Yours truly,
