## OVERVIEW

The Ontario Energy Board's August 13, 2019 [letter](#) commenced an initiative to review its requirements in relation to the connection of distributed energy resources (DERs) by licensed electricity distributors (DER Connections Review). The letter indicated that cost awards would be available under section 30 of the *Ontario Energy Board Act, 1998* (OEB Act) and that the OEB had determined that licensed, rate-regulated electricity distributors would pay the costs.

The OEB issued its decisions on cost eligibility (Decisions) on September 10, 2019, September 13, 2019, September 23, 2019, and January 13, 2020. A Supplementary Decision on Cost Eligibility was issued on July 16, 2025. The following participants in this consultation process were eligible to apply for an award of costs (eligible participants):

- Association of Major Power Consumers in Ontario (AMPCO)
- Building Owners and Managers Association (BOMA)
- Canadian Manufacturers & Exporters (CME)
- Consumers Council of Canada (CCC)
- Energy Probe Research Foundation (Energy Probe)
- Environmental Defence
- London Property Management Association (LPMA)
- Ontario Chamber of Commerce (OCC)
- Pollution Probe
- School Energy Coalition (SEC)
- Vulnerable Energy Consumers Coalition (VECC)

The Decisions noted that cost awards would be available in relation to participation in the Working Group. In the Decisions, the OEB requested that participants with similar viewpoints coordinate their activities to reduce costs and advised that this effort will be taken into account during the decision on awards of costs.

The maximum number of cost-eligible hours per participant to prepare for, attend and report on Working Group Meetings was limited to 1.5 times (or 2 times where one consultant was acting on behalf of two separate organizations) the meeting time.

On June 10, 2025, the OEB issued its Notice of Hearing for Cost Awards in relation to the DER Connections Review activities from July 16, 2024, to May 29, 2025.

The OEB received cost claims from BOMA, Energy Probe, Environmental Defence, and Pollution Probe. No objections to the cost claims were received from the rate-regulated electricity distributors.

## Findings

The OEB has reviewed the cost claims filed to ensure they were compliant with the OEB's *Practice Direction on Cost Awards*.

The OEB finds the cost claims of BOMA, Energy Probe, Environmental Defence and Pollution Probe are reasonable and within the maximum number of hours eligible for cost awards.

The OEB approves cost awards for the Eligible Participants as follows:

• BOMA	\$16,023.98
• Energy Probe	\$20,263.78
• Environmental Defence	\$21,646.41
• Pollution Probe	\$14,097.05

## Process for Paying the Cost Awards

The amount payable by each rate-regulated electricity distributor in relation to costs awarded to each eligible participant is listed in Schedule A to this Decision and Order. The amounts will not be paid directly by the distributor to the eligible participants.

The OEB will use the process set out in section 12 of the *Practice Direction on Cost Awards* to implement the payment of the approved cost awards whereby the OEB will act as a clearing house for all payments of cost awards. Consistent with this process, each distributor is issued one invoice that covers all cost awards payable for the relevant period. As a result, the invoice may cover cost awards payable in relation to a number of proceedings and consultations, including this proceeding.

## THE ONTARIO ENERGY BOARD ORDERS THAT:

1. Each Rate-regulated electricity distributor in Schedule A to this Decision and Order shall make a payment to the OEB in accordance with the invoice set out in Schedule A. The payment shall be due at the same time as all other cost assessments under section 26 of the OEB Act.

Note: Participant costs totaling \$ 55.49 were reallocated from certain distributors that are liable to pay cost assessments under section 26 of the OEB Act to the distributors listed in Schedule A to avoid any distributor paying costs that are less than \$25 in the aggregate for this case. This approach is in line with the Practice Direction on Cost Awards (section 12.02)
