Issues:

As (primarily) large gas users making up approximately 14% of EGI's contract rate customers, OGVG's members are directly interested in all aspects of the application insofar as they will be asked to insofar as they will be asked to pay rates that flow from the OEB's decision in this proceeding. Of particular interest to OGVG in this application are: a) The updating of LRAM related volumes for the contract rate classes, b) EGI's request for Z factor treatment related to the elimination of the Federal carbon tax; and c) the proposed changes to the PREP riders.

Policy Interests:

OGVG represents ratepayers taking service from Enbridge.

Hearings:

OGVG does not currently have an opinion as to the manner of hearing.

Evidence:

OGVG does not intend to file evidence.

Coordination with Other Intervenors:

OGVG fully expects to coordinate its efforts with other intervenors, particularly those representing ratepayer interests.

Cost Awards:

OGVG is applying for cost award eligibility, and has been found cost award eligible in all the OEB proceedings for which it has applied for intervenor status in the more than 10 years that it has been applying for intervenor status and cost award eligibility. OGVG notes that, pursuant to section 3.03 a) of the Practice Direction on Cost Awards, OGVG directly represents the interest of ratepayers, specifically greenhouse operations that take service from EGI for natural gas service, mostly within the contract rate classes. As a not-for-profit

organization, OGVG does not have other funding sources to ensure experienced representation to participate in and assist the OEB with these regulatory proceedings. Therefore, OGVG would respectfully request a determination of eligibility for cost award in this proceeding. OGVG retains professionals who have experience representing intervenor interests and, OGVG respectfully submits, have assisted the Board in previous proceedings in an efficient and responsible manner.
