2024-0236	OEB Consultations - Electricity	Granted

## **Issues:**

Pollution Probe represents a consumer and policy interest related to Enbridge's 2026 rate application. The application relates to 2026 rates in compliance with the OEB approvals and conditionals granted for the 2024-2028 rate term. Pollution Probe was a party to the settlement agreement approved by the OEB which applies to this 2026 application. Additionally, the draft Issues List Enbridge included in the application identifies reallocation of \$50 million of overhead capital to O&M as required to align with current accounting principles and reduce stranded asset risks associated with over-capitalisation of overhead costs. Additional related conditions were included in the OEB approved settlement agreement that pertains to this application.

## **Policy Interests:**

Please see above.

## **Hearings:**

Pollution Probe recommends that the OEB make a decision on the format of the hearing following the interrogatory phase of the proceeding.

## **Evidence:**

Pollution Probe does not intend to commission expert evidence at this time.

## **Coordination with Other Intervenors:**

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate. Pollution Probe also actively coordinated with stakeholders in the settlement agreement noted by Enbridge in its application. Pollution Probe expects this approach to continue for consideration of the 2026 rate application.

## **Cost Awards:**

Pollution Probe respectfully requests your acceptance of this intervenor request and confirmation that it will be eligible for its costs. Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.

## **Language Preference:**

English
