**Re: Extension of Voluntary Reporting for Activity and Program-based  
Benchmarking**

---

In 2025, the Electricity Record-keeping and Reporting Requirements (RRR) were updated to include voluntary reporting of certain information relating to Activity and Program-based Benchmarking (APB) under section 2.1.5.8.

The March 14, 2025, annual [RRR letter](#) noted that this reporting was expected to become mandatory for the 2025 year (i.e., for filings due on after April 30, 2026).

The OEB is deferring this mandatory reporting pending the completion of supporting work being undertaken as part of the [APB initiative](#).

The voluntary APB-related reporting will therefore remain voluntary for filings due on April 30, 2026.

Voluntary feeder-level reliability reporting (see section 2.1.4.2.12) also remains voluntary.

Yours truly,

Kevin Mancherjee  
Director, Operations Decision Support
