

NOTICE OF A RATE HEARING

InnPower Corporation has applied to increase its electricity distribution rates effective January 1, 2026

InnPower Corporation (InnPower) has applied to the Ontario Energy Board (OEB) to increase its electricity distribution rates effective January 1, 2026.

The requested rate adjustment is determined using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. If the application is approved as filed, a typical residential customer and a typical general service customer of InnPower would see the following increase:

Customer Class	Monthly Rate
Residential (750 kWh)	\$1.53 per month
General Service less than 50kW (2,000 kWh)	\$4.86 per month

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

InnPower Corporation has also requested:

- Approval to establish four new deferral accounts under Account 1508 to track net incremental revenues, costs, and carrying charges related to small cell wireless attachments, which were not included in its approved 2024 revenue requirement
- Approval to recover operating and capital costs related to restoration work from a Z-Factor event through two rate riders, effective January 1, 2026

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic, and written. The applicant has applied for, and the OEB plans to proceed with a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenorors. After the hearing, we will decide whether to approve the application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process.
