

NOTICE OF A RATE HEARING

Canadian Niagara Power Inc. has applied to increase its electricity distribution rates

Canadian Niagara Power Inc. (Canadian Niagara Power) has applied to the Ontario Energy Board (OEB) for approval to increase its electricity distribution rates effective January 1, 2026.

The requested rate changes are set using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency. If the application is approved as filed, a typical residential customer and a typical general service customer of Canadian Niagara Power would see the following increase:

Rate Class	Monthly Bill Impact
Residential (750 kWh)	\$1.45 per month
General Service less than 50kW (2,000 kWh)	\$3.22 per month

Other customers, including businesses, will also be affected. It is important to review the application carefully to determine whether you may be affected by the proposed changes.

Canadian Niagara Power has also requested approval to dispose of the balances in certain deferral and variance accounts including accounts that are collectively referred to as Group 1 accounts. For amounts in certain accounts related to power purchases from a generator that is out of province, Canadian Niagara Power has proposed a rate harmonized approach.

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for, and the OEB plans to proceed with, a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenor. After the hearing, we will decide whether to approve the application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process. Visit www.oeb.ca/notice and use file number **EB-2025-0050** to:

- Review the application
