NOTICE OF A RATE HEARING

Algoma Power Inc. has applied to increase its electricity distribution rates effective January 1, 2026

Algoma Power Inc. (Algoma Power) has applied to the Ontario Energy Board (OEB) to increase its electricity distribution rates effective January 1, 2026.

The requested rate adjustment is determined using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency. If the application is approved as filed, a typical residential customer and a typical general service customer of Algoma Power would see the following increase:

Customer Class	Monthly Rate
Residential R1 (750 kWh)	\$1.35 per month
Residential R (ii) (2000 kWh)	\$6.78 per month
Seasonal (200 kWh)	\$4.60 per month

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

Algoma Power has also requested:

- Updates to the Rate Design Model to reflect revised cost of capital and PILs components, in line with the OEB's Generic Cost of Capital proceedings
- Approval to include a residual credit balance in Account 1595 (2021) arising from higher-than-expected collections and extended rate rider activity in its 2027 IRM Group 1 disposition
- Approval to dispose of Group 2 Cost of Capital Variance Account balances over a one-year period through rate riders effective until December 31, 2026

AVIS D'AUDIENCE SUR LES TARIFS

Algoma Power Inc. a déposé une demande d'augmentation de ses tarifs de distribution d'électricité à compter du 1^{er} janvier 2026

Algoma Power Inc. (Algoma Power) a déposé une demande auprès de la Commission de l'énergie de l'Ontario en vue d'augmenter ses tarifs de distribution d'électricité à compter du 1^{er} janvier 2026.

Le rajustement des tarifs faisant l'objet de la demande est déterminé à l'aide d'une formule liée à l'inflation et approuvée par la CEO, ainsi qu'à d'autres facteurs visant à favoriser l'efficacité de la distribution. Si la demande est approuvée telle quelle, la facture d'un client résidentiel type et d'un client de services généraux type d'Algoma Power serait modifiée à la hausse de la manière suivante :

Catégorie de client	Tarif mensuel
Client résidentiel R1 (750 kWh)	1,35 \$ par mois
Client résidentiel R (ii) (2 000 kWh)	6,78 \$ par mois
Client saisonnier (200 kWh)	4,60 \$ par mois

D'autres clients, notamment des entreprises, seront également touchés. Il est important d'examiner la demande attentivement afin de déterminer si vous serez concernés par les changements proposés.

La demande déposée par Algoma Power porte également sur ce qui suit :

- une mise à jour du modèle de conception tarifaire pour tenir compte des composantes révisées du coût du capital et des paiements en remplacement, conformément aux procédures relatives au coût du capital générique de la CEO;
- l'autorisation d'inclure un solde créditeur résiduel dans le compte 1595 (2021) découlant de recouvrements plus élevés que prévu et de l'activité prolongée liée aux avenants tarifaires dans sa disposition du groupe 1 de l'IRM de 2027;
- l'approbation de l'aliénation des soldes du compte d'écart du coût du capital du groupe 2 sur une période d'un an grâce à des avenants tarifaires en vigueur jusqu'au 31 décembre 2026.

À SAVOIR

Il existe trois types d'audiences à la CEO : les audiences orales, les audiences électroniques et les audiences écrites. La Commission prévoit de traiter cette demande par voie d'audience écrite. Si vous estimez qu'avoir recours à un autre type d'audience serait préférable, vous pouvez écrire à la CEO pour lui présenter vos arguments.

Au cours de cette audience, nous entendrons les questions et les arguments des participants sur cette affaire. Nous entendrons également les questions et arguments des participants inscrits en tant qu'intervenants. Après l'audience, nous déciderons d'approuver ou non cette demande.
