## **LETTER OF COMMENT**

### **Comments:**

Hello, I just received notice from Enbridge that they are applying to the Ontario Energy Board for permission to increase their distribution rates. This after last year's profit of over \$18 billion. A figure that represents an increase of almost 12%. This after a increase over the previous year of 8% They link this request to inflation which I probably don't need to point out is well below what their revenue has already risen by. Please am requesting that your board initiate an inquiry into how Enbridge's revenue is up over 11% YOY at a time when most consumers are finding the cost of living very difficult. Please respond to this email as to whether you will initiate an investigation into this matter. Thank you
