## LETTER OF COMMENT

### Comments:

When I heard Embridge Gas had bought Union Gas I knew nothing good would come out of it. Since then the cost of heating our home with Natural Gas has skyrocketed. We have an abundance of Natural Gas in Canada. We are a special needs home and we do heat our home more in winter as the residence are blind and non verbal unable to say if they are cold plus due to incontinence sleep in soiled beds. All to say we use more heat than most residential homes. I think our rates have gone up plenty already and Embrisse should of never been permitted to buy out all these companies and form a monopoly. Union gas rates were amazing and competitive.
