At a time when Canadians are reeling under global economic pressure including higher than usual unemployment, currency depreciation, home prices and general cost of living crises reflected in a record number of Canadians resorting to using food banks to survive, while federal employees exercise union membership to force ever higher wages and benefits while tax payers bear the brunt of inflation, as a Tax-paying Canadian, I oppose the increase in already inflated rates that will result in higher profits for Wnbridge with no real increase in quality of services except for ever more intrusive collections methods and follow ups and threats of disconnection.
