**Attn: Ritchie Murray, Acting Registrar**

Dear Mr. Murray:

**Re: EB-2025-0065 – Enbridge Gas Inc. 5-Year Gas Supply Plan – Technical Conference**

We are counsel to the School Energy Coalition ("SEC"). Pursuant to Procedural Order No. 1, we write to provide SEC's areas of focus and estimated time requirement for the upcoming technical conference.

SEC is still reviewing the interrogatory responses, but its preliminary expectation is that it will require approximately 25 minutes of technical conference time. That time would be divided roughly equally among the following areas of focus, which have components which are interrelated: annual gas supply process and commodity procurement, Vector pipeline contracting and tolls, and security of supply.

Yours very truly,  
**Shepherd Rubenstein P.C.**
