Our File: EB20240115

**Attn: Ritchie Murray, Acting Registrar**

Dear Mr. Murray:

**Re: EB-2024-0115 – Hydro Ottawa Ltd. 2026-2030 – Technical Conference**

We are counsel to the School Energy Coalition ("SEC"). Pursuant to the Procedural Order, below are SEC's preliminary time estimates and areas of focus for the Technical Conference. SEC is still reviewing the interrogatory responses, and these estimates should therefore be considered preliminary. SEC will provide an updated time estimate later this week if there are any changes.

Panel	Areas of Focus	Time Estimate
1	DSP, including capital planning process, specific expenditures, unit costing, NWSs	135 minutes
2	General Plant, IT, OM&A, workforce planning, business planning	60 minutes
3	Rate framework, load forecast, DVAs, benchmarking	60 minutes

Yours very truly,  
**Shepherd Rubenstein P.C.**
