## **LETTER OF COMMENT**

### **Comments:**

Subject: Request to Reconsider Natural Gas Distribution Rates Increase Dear Enbridge Gas, I am writing to express my concern regarding the proposed increase in natural gas distribution rates. As a single-income earner supporting a family, rising costs already pose significant challenges. An increase in utility costs, including natural gas, would place an additional financial burden on my household and others in similar situations. Current economic conditions have been tough on many families in Ontario, and further rate hikes will only exacerbate the issue of household affordability. Given that inflation is beginning to decrease, I believe rates should reflect this positive trend and not continue to rise. I respectfully ask for your consideration of this issue and request that rate adjustments be made with the goal of supporting household affordability and reducing financial stress on families. Thank you for your attention to this matter.
