LETTER OF COMMENT

Comments:

I, Craig Rigby Williams detest these proposed increase rates and consider them to be nothing more than greedy profiteering via a corporation attempting to capitalize on an essential service. Families require affordable utilities. Hence the need for regulations. The initiatives outlined simply do not match the increase in charges. Thank you for letting me participate on such an important issue. P.S. the OEB website form made this awfully difficult to submit. Please allow special characters and address the CAPTCHA refreshing issue.
