## **LETTER OF COMMENT**

### **Comments:**

Cost of living is always on the rise, and with a utility that I require for living it's unfair that we should have to pay more as customers. I vaguely understand the costs to run a utility but with that said, Enbridge's priority and allegiance is to the shareholders and not the customers. I get nothing back except higher rates of service in exchange for my money. No thank you. Please keep rates stable as we venture through this time of economic hardship. It effects the lower income earners the most. Life is unaffordable, do not force us into worse conditions. Siding with large corporations will inevitably lead to the public changing their leadership for one who genuinely cares.

**Name:** Michael Williamson

**Do you reside in the impacted service area?:** Yes
