### **Comments:**

What good is it to have hearings regarding Embridge's rate change EB-2025-0163. If the change is to increase rates what recourse do customers have? Embridge is a monopoly, we as gas customers can not go elsewhere for our gas supply. It was a given years ago to heat with gas as it was so much cheaper than electric. That is not the case anymore. With no competition Embridge can pretty much do what they want. Ian M
