EPCOR NATURAL GAS LIMITED PARTNERSHIP- AYLMER

**Application for quarterly rate adjustment mechanism commencing
October 1, 2025**

By Delegation, Before:

Theodore Antonopoulos
Vice President
Major Applications

September 23, 2025

INTRODUCTION AND PROCESS

EPCOR Natural Gas Limited Partnership (EPCOR) filed an application with the Ontario Energy Board (OEB) on September 11, 2025 for an order approving just and reasonable rates and other charges for the sale of natural gas commencing October 1, 2025 for its Aylmer service area (the Application). The purpose of the Application is to set rates to pass-through to customers the market price of the natural gas commodity. EPCOR does not make a profit on the sale of the natural gas commodity to its customers.

The Application was made pursuant to section 36(1) of the *Ontario Energy Board Act, 1998* and in accordance with the Quarterly Rate Adjustment Mechanism (QRAM) established by the OEB for dealing with changes in natural gas costs.¹

EPCOR is a system supply customer of Enbridge Gas Inc., and Enbridge Gas Inc.'s QRAM application therefore impacts EPCOR's application.

EPCOR provided written evidence in support of the proposed changes. EPCOR provided the Application to all parties of record in EPCOR Aylmer's last major rates proceeding.²

Parties and OEB staff wishing to file questions or comments on the Application were required to file these questions or comments with the OEB by September 15, 2025.

OEB staff requested that EPCOR address certain typographical errors and other minor oversights, which EPCOR corrected in its response dated September 17, 2025.³

No other party filed questions or comments.

For the reasons set out below, the OEB approves the Application on an interim basis.

¹ EB-2008-0106

² EB-2024-0130

³ EPCOR Response to OEB Staff Question, September 17, 2025; EPCOR Response to OEB Staff Question, September 18, 2025

SUMMARY OF THE APPLICATION AND BILL IMPACTS

EPCOR notes that the forecast for natural gas prices reflects current contracts, the weather outlook, current storage levels, demand for natural gas and other current market conditions. The application reflects a decrease of 7% in the forecast cost of natural gas market prices over the next 12 months.

The total annual bill impact for a typical Aylmer residential customer consuming approximately 2,065 m³ is a decrease of approximately \$26.09 or 2.6%.

FINDINGS

The OEB approves the Application on an interim basis.

The QRAM process is how the OEB adjusts the prices that natural gas customers pay based on changes in natural gas market prices. The QRAM is intended to strike a balance between ensuring that consumers are receiving appropriate price signals which reflect natural gas market prices, and protecting the interest of consumers that purchase their gas from the distributor by reducing, to some extent, the volatility in the price of natural gas. Natural gas commodity prices charged by EPCOR are based on:

- a market price forecast for the commodity over the next 12 months
- a true-up between actual and forecast commodity prices for prior periods as actual costs are passed on to customers without a mark-up.

The OEB finds that the proposed gas commodity charge is set appropriately to reflect the change in the Purchased Gas Commodity Variance Account (PGVCA) reference price and the change in the recovery amount for inventory revaluation recorded in the Gas Purchase Rebalancing Account (GPRA).

In the July 1, 2025 QRAM proceeding, as per the Decision and Interim Rate Order,⁴ the proposed rates were made interim pending the outcome of an EPCOR proceeding regarding certificate rights and a commercial customer served by EPCOR⁵. These October 1, 2025 QRAM rates will remain interim pending the outcome of the related EPCOR proceeding.

⁴ EB-2025-0175, Decision and Interim Rate Order, June 24, 2025

⁵ EB-2024-0239

THE ONTARIO ENERGY BOARD ORDERS THAT:

1. The rates approved for EPCOR Natural Gas Limited Partnership's Aylmer service area as part of the Decision and Interim Rate Order in EB-2025-0175, dated June 24, 2025, shall be superseded on an interim basis by the rates as provided in Appendix A to this Decision and Interim Rate Order.
2. The interim rates shall be effective October 1, 2025 and shall be implemented in EPCOR Natural Gas Limited Partnership's first billing cycle commencing in October 2025.
3. The reference price for use in determining the amounts to be recorded in the Purchased Gas Commodity Variance Account shall decrease by \$ 0.017485 per m³ from the previous OEB approved level of \$0.184240 per m³ to **\$0.166755** per m³.
4. The balance in the Gas Purchase Rebalancing Account shall be prospectively cleared. The Gas Purchase Rebalancing Account recovery amount shall increase by \$0.004851 from the previous OEB approved level of -\$0.003470 per m³ to 0.001381 per m³.
5. The resulting gas commodity charge will decrease from the previous OEB approved level of \$0.180770 per m³ to **\$0.168136** per m³ as indicated in Appendix A to this Decision and Interim Rate Order.
6. EPCOR Natural Gas Limited Partnership shall notify its Aylmer customers of the rate changes no later than the delivery of the first bill reflecting the new rates.

- c) A Monthly Delivery Charge:

- (i) A Monthly Firm Delivery Charge for all firm volumes of 1.7539 cents per m³,
- (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 9.8284 cents per m³ and not to be less than 6.4445 per m³.

Rate Rider for Deferred Implementation 0.0200 cents per m³

– effective for 10 months ending December 31, 2025

Rate Rider for PGTVa recovery 0.3340 cents per m³

– effective for 10 months ending December 31, 2025

Rate Rider for UFGVA recovery 0.7543 cents per m³

– effective for 10 months ending December 31, 2025

- d) Transportation Charge 2.9161 cents per m³
- e) Gas Supply Charge (if applicable) Schedule A
- f) Overrun Gas Charges:

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the

Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:
 - a) The volume of gas for which the customer is willing to contract;
 - b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
 - c) Interruptible or curtailment provisions; and
 - d) Competition.
3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.5159 cents per m3 for firm gas and 6.0676 cents per m3 for interruptible gas.
4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 6.1707 cents per m3 and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

⁽¹⁾ Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by EPCOR, customers who are delivering gas to EPCOR under direct purchase arrangements must obligate to deliver said gas at a point acceptable to EPCOR, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

Delayed Payment Penalty

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

The availability of this option is subject to EPCOR obtaining a satisfactory agreement or arrangement with Enbridge Gas Inc. and EPCOR's gas supplier for direct purchase volume and DCQ offsets.

Eligibility

All customers electing to purchase gas directly from a supplier other than EPCOR must enter into a Bundled T- Service Receipt Contract with EPCOR either directly or through their agent, for delivery of gas to EPCOR at a mutually acceptable delivery point.

Rate

For gas delivered to EPCOR at any point other than the Ontario Point of Delivery, EPCOR will charge a customer or their agent all approved tolls and charges incurred by EPCOR to transport the gas to the Ontario Point of Delivery.

Note:

Ontario Point of Delivery means Dawn or Parkway on the Enbridge Gas Inc. (Union South) System as agreed to by EPCOR and EPCOR's customer or their agent.

Effective: October 1, 2025

Implementation: All bills rendered on or after October 1, 2025
