LETTER OF COMMENT

Comments:

It is really too bad that it has to be said, but one private company shouldn't have a monopoly on utilities essential for living. Since becoming a home owner in the last 6 years, the rates have more than doubled. This is crazy seeing as cost of living is skyrocketing and the government isn't helping out the average Canadian by locking down utility prices. As is is, most of our peers are having a very hard time buying or renting a place for their families. Do better.
