LETTER OF COMMENT

Comments:

ood day, I am writing about the gas price increase that Enbridge Gas is proposing. I do not agree with the proposed rate increase due to inflation and other factors intended to promote efficiency. I believe that Enbridge is using non-specific terms such as, other factors to promote efficiency, in order to fool both the OEB and customers in order to make more money for their shareholders. All this is, is just a way for the company to make more money. These people are profit driven and do not care about their customers. Enbridge has seen their income double and see this as another opportunity to make more. I would like to see OEB consider its customers and not allow Enbridge to just get wealthier. I have included an article by the financial post stating this fact.

<https://financialpost.com/commodities/energy/oil-gas/enbridge-profit-more-than-doubles> Thank you so much Bartek Stankusz
