LETTER OF COMMENT

Comments:

Enbridge Gas The natural gas provider has applied for a rate increase beginning Jan. 1, 2026. This rate increase needs to be denied! Canadians are maxed out with living cost expenses. These utilities companies are making hundreds of millions of dollars on profits, yet they are applying for rate increases so that they can maintain a "percentage profit margin range" for the benefit of shareholders and the expenses of Canadians. There is an affordability crisis across not only Ontario, but all of Canada. There is no more room for rate increases. These Globlists Companies earning Hundreds of Millions in surplus profits need to start lowering the expected Profit Margins forced on them by shareholder. It is time for Canadians for fight back and deny these rate increases.
