

LETTER OF COMMENT

Comments:

Good morning. I received a Customer Care notice from Enbridge indicating they are applying for a rate increase. I couldn't open the link to the case no, but called OEB and they gave me your email. I don't usually take the time to write but felt that the OEB should consider the economic state of affairs with tariffs and the Buy Canada - Elbows UP state of affairs. Canadians, consumers like I are struggling and maybe this round of increases should be rejected or reduced. Please consider that.
