## **LETTER OF COMMENT**

### **Comments:**

I personally feel that this request for rate increase is unfair to the working class. With all of the taxation and regulatory fees our household bills are becoming outrageous. I am a single income and the only person who resides in the house. I have been trying to replace outdated appliances with newer more efficient devices, but it does not seem to have lowered to the cost yet. As with most households, everything we rely on is getting more expensive and yet wages don't go up in kind.
