I do not wish for any hydro or energy prices to increase. I literally am a single mom working two jobs just to try and support my family and save some money and get somewhere in life. These prices are already ridiculous enough. Are you trying to make every Canadian fall behind on all their bills ? Go into debt? Get their energy shut off and not be able to provide for their family ? Why charge us more ? What's the reason for that? Increase our wages to a livable income and then maybe we can afford your outrageous prices. But why do that to your customers? To line your own pockets ? Not fair to the average working person and household. At all! Please do not increase the rates. I already can't even pay a full bill per month. I only pay enough each month to just keep my hydro on and gas on !! To keep the crooks at bay! But I can't afford the current monthly rates, let alone an increase! I don't drive neither! I just use my free bike to get everywhere. I crunch my family into a tiny bachelor so I don't have to struggle to pay rent every month or have rent take up the majority of my income. Like we are already sacrificing plenty to make ends meet. Please don't raise the prices ! I don't make enough as is ! I'm sure I'm not alone in this situation neither ! PLEASE DONT RAISE PRICES AGAIN !!
