LETTER OF COMMENT

Comments:

We can barely afford the monthly cost of hydro now. Last winter our hydro was around \$500-\$600 a month and we had to buy less food for our kids to eat because of it and keep half of our heaters off and freeze. We should never have to choose between these things. We have lived at our house since 2018 and have never had a winter bill over \$300 till last winter. I even have to pay the stupid delivery fee of almost \$80 for just getting a email notification. I do not need to be paying for delivery when I'm not getting a delivery

Name: Adam Oneil
