Dear Mr. Murray:

**Subject: Hydro Ottawa Limited (Hydro Ottawa)
Custom Incentive Rate-Setting (Custom IR) Application for 2026-2030
Electricity Distribution Rates and Charges - Interrogatory Responses
OEB File: EB-2024-0115**

Pursuant to Procedural Order No. 2 issued on August 7, 2025, Hydro Ottawa participated in the Technical Conference held from September 22 to 25, 2025. In preparation for the Technical Conference, Hydro Ottawa received requests to respond to written undertakings from Environmental Defence, Vulnerable Energy Consumers Coalition and Distributed Resource Coalition.

Over the course of the technical conference period, Hydro Ottawa received a total of 151 undertakings (excluding sub-parts). Given the volume of requests and the detailed analysis required for certain responses, Hydro Ottawa is filing the majority of its undertaking responses with this submission and respectfully requests leave to file the remaining responses by Wednesday October 8, 2025. While most of the outstanding undertakings are expected to be completed before that date, Hydro Ottawa is awaiting input from external parties for several items and anticipates being able to provide those responses by Wednesday.

Pursuant to the OEB's Practice Direction on Confidential Filings, Hydro Ottawa intends to submit, under separate cover letter later today, a confidentiality request to protect certain sensitive information and to redact material that is not relevant to this proceeding.

During the preparation of its undertaking responses, Hydro Ottawa also identified portions of evidence requiring correction. Accordingly, a table of revisions has been included as Appendix A of this cover letter.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Signed by:
