**EB-2025-0124 – Review Motion of IRP Pilot Project Decision
Pollution Probe Cost Eligibility Request**

Dear Mr. Murray:

Procedural Order No. 1 for the above-noted proceeding indicated that the Ontario Energy Board (OEB) approved all parties of record in EB-2022-0335 as parties in the EB-2025-0124 proceeding and indicated that intervenors granted cost eligibility status in EB-2022-0335 are eligible to apply for an award of costs for their participation in this Review.

Pollution Probe was an approved intervenor in the EB-2022-0335 proceeding and hereby requests that it be eligible for the recovery of reasonably incurred costs for its participation in the EB-2025-0124 Review proceeding. Pollution Probe represents a direct consumer and policy interest related to the issues outlined in this proceeding and intends to actively participate in the Review proceeding, including submitting a submission on the questions outlined by the OEB in Procedural Order No. 1.

Pollution Probe is a frequent participant in OEB proceedings including those related to integrated resource planning and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/893229/File/document>

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe respectfully requests your acceptance and confirmation that it will be eligible for its costs.

Notice

Pollution Probe requests that further communications with respect to this matter be sent to:
