Dear Mr. Murray:

Re: EB-2024-0125 – Enbridge Gas Inc. (“EGI”). – 2023 Deferral and Variance account application – Comments of City of Kitchener on Draft Rate Order (DRO)

Pursuant to the Ontario Energy Board's ("Board's") decision dated September 23, 2025, in the above-noted proceeding, EGI submitted Draft Rate Order on September 29, 2025.

Please find below the comments related to DRO to EGI, on behalf of Kitchener.

While comparing the DRO from 10th October 2024 with 29th September 2025, it is noticed that the amount allocated to T3 rate has gone up from \$12K to \$28K.

When reviewed line by line account, it is noticed that there is a change in percent allocation.

Under Incremental Capital Module account number **179-159**

In DRO dated Oct 10, 2024, T3 got allocated a credit of \$12K on a total amount of \$887 i.e., at 1.35% percent allocation.

In DRO dated Sep 29, 2025, T3 got allocated a credit of \$4K on a total amount of \$896.6 i.e., at 0.446% percent allocation.

Under Accounting Policy Changes D/A - Other - EGI account number **179-381**

In DRO dated Oct 10, 2024, T3 got allocated a debit of \$78K on a total amount of \$5,546.40K i.e., at 1.4% percent allocation

In DRO dated Sep 29, 2025, T3 got allocated a debit of \$87K on a total amount of \$5,720.4K i.e., at 1.5% percent allocation

Kitchener would like to understand why the credit percentage allocation got reduced for account number 179-159 and why the debit percentage allocation got increased for account number 179-381.

Sincerely,

Khaled Abu-Eseifan
