Attn: Mr Ritchie Murray, Acting Board Registrar
P.O. Box 2319
2300 Yonge Street, 27th Floor
Toronto, Ontario, M4P 1E4

Dear Mr. Murray:

Re: EB-2024-0125 – Enbridge Gas Inc. (“EGI”). – 2023 Deferral and Variance account application – Comments of City of Kitchener on Draft Rate Order (DRO)

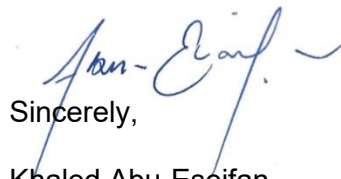

On 10th October 2025, Kitchener had asked to clarify the change in percent allocation to T3 rate under Incremental Capital Module account number **179-159**.

On 15th October, Enbridge mentioned that the difference is due to weighting of the individual balances for each project.

Enbridge provided a table using final amounts (column a) for each project taken from evidence dated 31st May 2024, Exhibit E Tab 1 Table 1, page 54 of 55 and compared to updated final amounts (column b) for disposal for each project.

Kitchener would like Enbridge to provide updated table shown in Exhibit E tab 1 page 54 of 55 which would provide principal amounts and final interest to be disposed for 2023.

Assuming the principal amount (column d) to be final in the evidence, Kitchener would like Enbridge to provide the interest rate associated with interest amounts (column e) used for final disposal and confirm and explain if there is inconsistency in the interest rate calculation for different project.

Sincerely,

Khaled Abu-Eseifan
Manager, Gas Supply & Engineering
