## **Issues:**

DRC intends to provide comments and feedback in relation to the identified issues of (i) compensation mechanisms that reflect the value of DERs (e.g., value of DER tariff, adders to reflect differences in regional and temporal value); and (ii) demand/delivery charges for resources that provide grid services (e.g., DERs and storage). DRC intends to provide comments with respect to Electric Vehicles as mobile DERs and support the Board in ensuring that Ontario is able to unlock the value of EVs and DERs, lower barriers to participation for many EV and DER owners and support smarter planning and investment.

## **Policy Interests:**

DRC primarily represents the direct interests of consumers (residential customers) in relation to services that are regulated by the Board. DRC represents organizations that have a policy interest in (i) preparing Ontario's distribution system for widespread adoption of EVs and DERs and ensuring adequate and expanded access to EV infrastructure, (ii) electricity conservation and demand management, (iii) implementation of a smart grid in Ontario, and (iv) promotion of the use of electricity from renewable energy sources.

## **Coordination with Other Intervenors:**

DRC intends to be an active participant in this consultation and will act responsibly to coordinate with other intervenors where common issues may arise and be otherwise addressed.

## **Cost Awards:**

DRC is, in accordance with s. 3.03(a) of the Board's Practice Direction on Cost Awards (the "Practice Direction"), eligible to seek an award of costs as DRC is a party that primarily represents the direct interests of consumers (residential customers) in relation to services that are regulated by the Board. DRC is also eligible to seek an award of costs in accordance with s. 3.03(b) of the Practice Direction, as DRC represents organizations that have a policy interest

in electricity conservation and demand management, implementation of a smart grid in Ontario, promotion of the use of electricity from renewable energy sources, each of which are components of the Board's mandate and relevant to the consultation. The Board has granted DRC cost eligibility in several Board proceedings, including each of the proceedings referred to in section 2 above .
