LETTER OF COMMENT

Comments:

Do not put rates up. People can't afford rent or food, you think we can afford hydro to go up? This is result in more people failing to pay and end up costing you money, not to mention the bad PR. You should be offering people a break. We have plenty of hydro on Ontario, we produce more than enough. If your costs are going up and you have to produce more then stop supplying AI facilities since they take up the most resources and don't matter.
