LETTER OF COMMENT

Comments:

Subject: Objection to Proposed Electricity Rate Increases File No. EB-2025-0252 To the Ontario Energy Board, I am writing to express my objection to Alectra Utilities' proposed electricity distribution rate increases effective January 1, 2027. These changes would have a negative impact on my monthly household costs and would make it harder for families like mine to manage our regular living expenses. Electricity is an essential service, and many households are already struggling with high utility and grocery costs. The proposed increases are unfair and too drastic, especially for typical residential customers. Even small monthly increases add up over time and affect our ability to afford other daily necessities. I urge the Ontario Energy Board to reject or reduce these proposed increases and to ensure that any future rate adjustments are gradual and considerate of families' financial realities. Thank you for the opportunity to comment.

Name: D Dickson

Do you reside in the impacted service area?: Yes
