Kimberly Lawrence

-- Do you reside in the impacted service area? --

Yes

-- Comments --

While I understand that Alectra is seeking to harmonize rates and adjust for inflation, I am concerned about the continued increases to electricity distribution costs for residential customers. Even small monthly increases can add up over time and place additional strain on households already managing higher living expenses.

I encourage the Board to carefully review Alectra's proposed rate changes to ensure they are fair, justified, and supported by clear evidence of efficiency improvements and customer benefits.
