**Re: Procedural Order #3  
Niagara-on-the-Lake Hydro Inc. Application for 2009 Electricity  
Distribution Rates - Board File No EB-2008-0237**

Dear Ms. Walli,

Further to Procedural Order #3, please find our response to the requests below:

1a) NOTL Hydro has in our opinion provided detailed responses to all interrogatory questions posed by OEB staff and Intervenors. Should the other participants require further discovery we would be pleased to provide additional information. It is our understanding that the purpose of a Technical Conference is to clarify the interrogatories and the expectations for required responses. We found that a few teleconferences brokered by the OEB staff were successful in this regard. For efficiency, we would recommend teleconferences as required rather than a Technical Conference.

1b) We are unaware at this time of any issues requiring settlement.

1c) For the sake of cost effectiveness, we would prefer a written hearing.

Regards,

Jim Huntingdon  
President
