Natural Gas Rates Have Changed

For **Residential Customers** who purchase their gas supply from **Enbridge Gas Distribution**

Rate 1

The Ontario Energy Board (“OEB”) has approved changes to Enbridge Gas Distribution’s rates effective

January 1, 2015. These rates are approved on an interim basis.

A typical residential homeowner will see an annual increase on their bill of about \$63 as a result of these changes. The chart on the back provides a breakdown of the annualized changes. The total effect on your bill will depend on how much gas you use.

The Gas Supply and Transportation to Enbridge charges are based on North American market prices and established transportation prices. We pass these costs on to customers with no mark-up.

The Customer and Delivery charges recover fixed costs for infrastructure and customer service, as well as a regulated rate of return.

Gas Supply Charge

The Gas Supply Charge has increased from 14.6243 cents per cubic metre (“¢/m³”) to 14.7363 ¢/m³.

The Gas Supply component of the Cost Adjustment is currently a charge of 3.5797 ¢/m³. This charge, combined with the Gas Supply Charge, results in a new total effective Gas Supply rate of 18.3160 ¢/m³.

Transportation to Enbridge

The Transportation charge has increased by approximately \$25 per year for a typical customer due to higher costs for transporting natural gas to Ontario.

Delivery to You

The Delivery charge has increased by approximately \$12 per year for a typical customer due to higher delivery related costs.

Cost Adjustment

The total Cost Adjustment charge is 6.3467 ¢/m³, effective until December 31, 2015. Please see the chart on the reverse for the breakdown by component.

Site Restoration Clearance

The Site Restoration Clearance refund of 1.4058 ¢/m³ is approved on an interim basis. It reflects changes in an estimate of ongoing and future site restoration costs. Site restoration costs are incurred when gas distribution pipelines are replaced or retired over the life of the gas distribution system.

Rate Adjustment

The OEB has also approved a one-time Rate Adjustment to reflect the difference between 2014 interim and final rates for volumes consumed from January 1, 2014 to September 30, 2014. For a typical residential customer, this adjustment will be a refund of about \$16 on their January bill.
