-- Name --

HASEEB BARLAS

-- Do you reside in the impacted service area? -- Yes

-- Comments --

I reject this proposal of increasing electricity distribution rates as this will severely negatively impact my family and our financial standing. We reside in a townhouse in brampton and have incurred tremendous jumps in all including electric gas and water bills in our community. I disagree that Alectra Utilities Corporation's cost of providing has increased that dramatically and request to be provided a breakdown of their cost calculations and projections for 2027. The fact that this notice came in the junk mail box of my email tells that majority of the citizens using their service are unaware that this application for Alectra is even in process and will only realize their losses when Alectra increases our bills due to severe lack of information publication. This application is extremely appalling.
