-- Comments --

I am voicing my opinion with regards to the future rate increase if approved. I oppose to this request with the OEB. At a time that is proven to be difficult for people to to survive during these economic hardships, your request couldn't be at a worse time. Some people cant afford every day necessities...including electricity. Perhaps look elsewhere for cuts in order to do what you need to do. How much does the CEO of your company make , and othr people under the umbrella of Alectra honchoes. They make absurd amounts in salary. Compare that to the avg person. Some people live pay cheque to pay cheque. Give the people a break.
