**Re: Wasaga Distribution Inc. – EB-2025-0254
WDI Response to Hydro One Notice of Motion/Delay Request**

Dear Mr. Murray,

I am writing further to the letter from Mr. Pasquale Catalano to the Ontario Energy Board on behalf of the intervenor, Hydro One Network Inc. (“HONI”), dated November 14, 2025 (the “Notice of Motion”).

The Notice of Motion seeks to delay the timelines set out in Procedural Order No. 3 (“PO3”) and to introduce a motion requiring Wasaga Distribution Inc. (“WDI”) to provide additional information. WDI submits that it has provided complete and sufficient responses to HONI IR#7e, f and IR#12b, and notes that OEB Staff-5 provides sufficient information to address HONI’s interrogatories. While WDI has no objection to providing a copy of PRE-C1722 to HONI in response to IR# 1c, if deemed necessary by the Board, the request for an extension of procedural timelines is not warranted. Any further extension would place WDI in a challenging position, as we are approaching year-end and we must allocate resources to support ongoing business operations.

HONI has had sufficient opportunity to consider WDI’s application, filed on August 19, 2025, review the additional evidence, and assess the written interrogatory responses.

Accordingly, HONI’s Notice of Motion should be denied, and the procedural timelines in PO3 should be maintained. Given the deadlines for filing submissions under PO3, WDI respectfully requests an immediate ruling on the Notice of Motion.

Respectfully Submitted,

A. Karamatic
