On December 16, 2024, Hydro One Networks Inc. (Hydro One) applied to the Ontario Energy Board (OEB) under section 99 of the *Ontario Energy Board Act, 1998*, (OEB Act), for an order granting approval to expropriate interests in certain lands (the Subject Lands) near the City of Port Colborne. Hydro One stated that the expropriation is needed so that it may continue to operate and maintain existing transmission lines that are located on the Subject Lands (Existing Transmission Lines). The Existing Transmission Lines were placed in their current location in the 1960s and form part of the Independent Electricity System Operator controlled transmission grid.

The OEB is seeking clarification from all parties on the following matters:

1. Please confirm that the infrastructure described in Appendix 4 of the Application is the sum total of the infrastructure of concern in this proceeding.¹
2. In Plan 59R-15312 provided in the evidence², only a portion of the Feeder Line is shown to be on lands Nyon owns. Please confirm the scope of the infrastructure covered by the “Feeder Line Licence” described in the application.³
3. What customers are served by the Feeder Line?
