Re: Consultation on the Regulatory Treatment of Local Electricity Demand-side Management (Stream 2) Programs

On July 23, 2025, the Ontario Energy Board (OEB) issued a [letter](#) initiating a consultation on the regulatory treatment of electricity demand-side management programs delivered by local distribution companies that provide both local and system wide benefits (letter).

The letter made provision for approved stakeholders to file written comments for the OEB's consideration by November 13, 2025, and the Working Group could file its written reply comments for the OEB's consideration by November 27, 2025. The Working Group filed a [letter](#) on November 24, 2025, and made the following request:

Several stakeholder written comments were submitted well after the OEB's November 13, 2025, due date. The Working Group is requesting the OEB extend the deadline for it to submit its reply comments from November 27, 2025, to December 5, 2025.

The OEB has reviewed the Working Group's extension request and will grant an extension to December 3, 2025, for submitting its reply comments.

Please direct any questions relating to this consultation to the Project Lead, Michael Parkes, at michael.parkes@oeb.ca.

Yours truly,

Ritchie Murray
Acting Registrar
