 Notice_Hearst Power_IRM_202511...
272 KB

Good morning Mark

In accordance with the Ontario Energy Board's Letter of Direction for Hearst Power Distribution Company Limited's 2026 Distribution Rates application, we are providing you with the required materials related to EB-2025-0033 as a past intervener of record in Hearst Power's previous applications.

Hearst Power is seeking approval for an Incremental Capital Module (ICM) rate rider to recover the costs associated with a material and discrete capital project: the replacement of its primary digger derrick truck.

Please find enclosed the English Notice of Hearing.

The full application and supporting evidence, including the ICM proposal, can be accessed at the link below:

[Hearst Power – 2026 IRM Distribution Rates Application and ICM Request](#)

If you have any questions or concerns, please don't hesitate to let us know.

Thanks and have a great day.

Manuela Ris

On behalf of Jessy Richard at Hearst Power Distribution Company Limited
