## Issues:

Pollution Probe represents a consumer and policy interest related to Enbridge's application to clear the 2024 Utility Earnings and Disposition of Deferral & Variance Accounts. Pollution Probe was a party to the 2024 Rebasing proceeding and the OEB-approved settlement agreement which includes the existing and new accounts (e.g. DIMPVA)) outlined in this Enbridge application. The amounts outlined in this application include amounts related to several proceedings to which Pollution Probe is a party, and also includes incremental amounts requested to be claimed for accounts that were part of the most recent 2023 account clearance proceeding (e.g. costs related to East Kingston Creekford Rd Reinforcement project costs).

## Policy Interests:

Please see above.

## Hearings:

Pollution Probe recommends that the OEB make a decision on the format of the hearing

following the interrogatory phase of the proceeding.

## **Evidence:**

Pollution Probe does not intend to commission expert evidence at this time.

## **Coordination with Other Intervenors:**

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate. Pollution Probe coordinated efficiently with stakeholders in the 2024 Rebasing proceeding which set the basis for the 2024 accounts proposed to be cleared. This efficient coordination is planned to continue in this proceeding.

## **Cost Awards:**

Pollution Probe respectfully requests your acceptance of this intervenor request and confirmation that it will be eligible for its costs. Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.
