Issues:

IGUA's constituents are EGI's largest volume customers, and as such are directly affected by gas delivery rates set by the OEB and other determinations made by the OEB that impact gas delivery rates and services. IGUA was an active intervenor in the proceeding which resulted in establishment of EGI's 2024 rates, from which the instant ESM and VA application arises. As such, IGUA has an interest in all aspects of the current application, though expects that most will be non-contentious. In addition to rate determinations, EGI has filed reports on the Indigenous Working Group, IRP, and the distribution integrity management programs that were the subject of a partial settlement between the parties (including IGUA) in EGI's 2024 rate rebasing application. As such, IGUA has an interest in review of these matters as well.

Hearings:

Subject to further review of the pre-filed materials and discovery thereon, we anticipate that this matter can effectively be addressed through a written hearing process.

Evidence:

IGUA does not intend to file evidence in this matter.

Coordination with Other Intervenors:

As a regular intervenor in OEB matters, including in particular natural gas matters, IGUA regularly works in coordination with other regular intervenors to avoid unnecessary and undue duplication of efforts and activities, and fully intends to continue to do so in this proceeding. As a matter of practice, IGUA tends to focus on aspects of EGI applications unique to, or which have a particular impact on, large industrial customers, or matters impacting the OEB's ongoing approach to adjudication which have continuing impacts on the veracity and conduct of OEB processes in which IGUA engages.

Cost Awards:

IGUA requests that it be determined eligible to apply for an award of its costs reasonably incurred herein. As representative of the direct interests of EGI's largest volume ratepayers in relation to services regulated by the Board, IGUA has generally been determined eligible to apply for a cost award pursuant to paragraph 3.03(a) of the OEB's Practice Direction on Cost Awards.
