Dear Adam Pappas:

**Re: Burlington Hydro Inc.
Ontario Energy Board File Number: EB-2025-0051
Errata for November 25, 2025 Decision and Rate Order**

The Ontario Energy Board (OEB) issued a Decision and Rate Order for Burlington Hydro Inc. (Burlington Hydro) on November 25, 2025. The Tariff of Rates and Charges included with this Decision and Rate Order contained what amounts to a typographical error where the Electric Vehicle Charging Rate (EVC) was not included. This charge had been agreed to by the parties to the proceeding as part of a settlement proposal that was accepted by the OEB. The OEB is therefore issuing an updated Tariff of Rates and Charges.

Pursuant to its powers under Rule 41.03 of the OEB's *Rules of Practice and Procedure*, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions.

The OEB has amended its Decision and Rate Order, attaching a corrected version, including a Tariff. The updated Tariff includes reference to the EVC rate. This revised Decision and Rate Order supersedes and replaces the previously issued Decision and Rate Order. The revised Decision and Rate Order does not change the OEB's findings, nor any of the dates in the previous Decision and Rate Order.

Yours truly,

Ritchie Murray
Deputy Registrar
