P.O. Box 2319
Toronto, ON M4P 1E4

Dear Mr. Murray:

**RE: CANADIAN NIAGARA POWER INC.,
2026 4TH GENERATION INCENTIVE RATE-SETTING APPLICATION
EB-2025-0050**

In preparing for its 2026 rate implementation processes, CNPI identified an inconsistency in the billing unit applicable for the Street Lighting rate riders for CBR and Group 1. The main billing unit for this rate classification is “kW” (previously “kWh”). CNPI has updated the model attached with OEB Staff submissions to update the billing unit and the resulting rate riders, and this update and has filed it via RESS.

Sincerely,

Oana Stefan
Manager, Regulatory Affairs
