EPCOR NATURAL GAS LIMITED PARTNERSHIP- AYLMER

**Application for quarterly rate adjustment mechanism commencing
January 1, 2026**

By Delegation, Before:

Theodore Antonopoulos
Vice President
Major Applications

December 19, 2025

INTRODUCTION AND PROCESS

EPCOR Natural Gas Limited Partnership (EPCOR) filed an application with the Ontario Energy Board (OEB) on December 10, 2025 (updated on December 19, 2025) for an order approving just and reasonable rates and other charges for the sale of natural gas commencing January 1, 2026 for its Aylmer service area (the Application). The purpose of the Application is to set rates to pass-through to customers the market price of the natural gas commodity. EPCOR does not make a profit on the sale of the natural gas commodity to its customers.

The Application was made pursuant to section 36(1) of the *Ontario Energy Board Act, 1998* and in accordance with the Quarterly Rate Adjustment Mechanism (QRAM) established by the OEB for dealing with changes in natural gas costs.¹

EPCOR is a system supply customer of Enbridge Gas Inc., and Enbridge Gas Inc.'s QRAM application therefore impacts EPCOR's application. EPCOR re-filed its application on December 19, 2025 to reflect updates made by Enbridge Gas Inc. in its second amended application in the event the OEB was to approve that second amended application which reflected no rate mitigation.² The OEB approved Enbridge Gas's second amended application on December 19, 2025.

EPCOR provided written evidence in support of the proposed changes. EPCOR provided the Application to all parties of record in EPCOR Aylmer's last major rates proceeding.³

A letter of comment was filed by OEB staff on December 15, 2025, prior to the filing of EPCOR's updated application.⁴

No other party filed questions or comments.

For the reasons set out below, the OEB approves the updated Application on a final basis.

¹ EB-2008-0106

² EB-2025-0308

³ EB-2024-0130

⁴ EPCOR Response to OEB Staff Questions, December 15, 2025

SUMMARY OF THE APPLICATION AND BILL IMPACTS

EPCOR notes that the forecast for natural gas prices reflects current contracts, the weather outlook, current storage levels, demand for natural gas and other current market conditions. The application reflects an increase of 10.8% in the forecast cost of natural gas market prices over the next 12 months.

The total annual bill impact for a typical Aylmer residential customer consuming approximately 2,065 m³ is an increase of approximately \$17.33 or 1.8%.

FINDINGS

The OEB approves the updated Application on a final basis. The OEB notes that no mitigation measures were approved by the OEB in its decision on Enbridge Gas's January 1, 2026 QRAM application. This results in a minor increase to the bill impact to Aylmer's customers, but the total impact is still below 2% annually. Therefore the OEB finds it appropriate to approve EPCOR's December 19, 2025 updated Application as filed.

The QRAM process is how the OEB adjusts the prices that natural gas customers pay based on changes in natural gas market prices. The QRAM is intended to strike a balance between ensuring that consumers are receiving appropriate price signals which reflect natural gas market prices, and protecting the interest of consumers that purchase their gas from the distributor by reducing, to some extent, the volatility in the price of natural gas. Natural gas commodity prices charged by EPCOR are based on:

- a market price forecast for the commodity over the next 12 months
- a true-up between actual and forecast commodity prices for prior periods as actual costs are passed on to customers without a mark-up.

The OEB finds that the proposed gas commodity charge is set appropriately to reflect the change in the Purchased Gas Commodity Variance Account (PGVCA) reference price and the change in the recovery amount for inventory revaluation recorded in the Gas Purchase Rebalancing Account (GPRA).

In the October 1, 2025 QRAM proceeding, as per the Decision and Interim Rate Order,⁵ the proposed rates were made interim pending the outcome of an EPCOR proceeding regarding certificate rights and a commercial customer served by EPCOR.⁶ A decision

⁵ EB-2025-0263, Decision and Interim Rate Order, September 24, 2025

⁶ EB-2024-0239

was issued in that proceeding on November 6, 2025, providing clarity on certificate rights in the area. As such, these January 1, 2026 QRAM rates are approved on a final basis.

THE ONTARIO ENERGY BOARD ORDERS THAT:

1. The rates approved for EPCOR Natural Gas Limited Partnership's Aylmer service area as part of the Decision and Interim Rate Order in EB-2025-0263 dated September 24, 2025, shall be superseded on a final basis by the rates as provided in Appendix A to this Decision and Rate Order.
2. The rates shall be effective January 1, 2026 and shall be implemented in EPCOR Natural Gas Limited Partnership's first billing cycle commencing in January 2026.
3. The reference price for use in determining the amounts to be recorded in the Purchased Gas Commodity Variance Account shall increase by \$0.023595 per m³ from the previous OEB approved level of \$0.166755 per m³ to **\$0.190350** per m³.
4. The balance in the Gas Purchase Rebalancing Account shall be prospectively cleared. The Gas Purchase Rebalancing Account recovery amount shall decrease by \$0.005373 from the previous OEB approved level of \$0.001381 per m³ to **-\$0.003992** per m³.
5. The resulting gas commodity charge will increase from the previous OEB approved level of \$0.168136 per m³ to **\$0.186358** per m³ as indicated in Appendix A to this Decision and Rate Order.
6. EPCOR Natural Gas Limited Partnership shall notify its Aylmer customers of the rate changes no later than the delivery of the first bill reflecting the new rates.

ISSUED at Toronto, December 19, 2025

RATE 3 - Special Large Volume Contract Rate

Rate Availability

The entire service area of the company.

Eligibility

A customer who enters into a contract with the company for the purchase or transportation of gas:

- a) for a minimum term of one year;
- b) that specifies a combined daily contracted demand for firm and interruptible service of at least 700 m³; and
- c) a qualifying annual volume of at least 113,000 m³.

Rate

1. Bills will be rendered monthly and shall be the total of:

- a) A Monthly Customer Charge⁽¹⁾:

A Monthly Customer Charge of \$240.79 for firm or interruptible customers; or
A Monthly Customer Charge of \$267.20 for combined (firm and interruptible) customers.

- b) A Monthly Demand Charge:

A Monthly Demand Charge of 34.8861 cents per m³ for each m³ of daily contracted firm demand.

- c) A Monthly Delivery Charge:

- (i) A Monthly Firm Delivery Charge for all firm volumes of 1.7997 cents per m³,
- (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 10.0852 cents per m³ and not to be less than 6.6129 per m³.

	Rate Rider for REDA recovery – effective for 12 months ending December 31, 2026	\$0.06 per month
	Rate Rider for PGTVA recovery – effective for 12 months ending December 31, 2026	0.3241 cents per m ³
	Rate Rider for UFGVA recovery – effective for 12 months ending December 31, 2026	0.4270 cents per m ³
	Rate Rider for WACC recovery – effective for 12 months ending December 31, 2026	(0.0602) cents per m ³
d)	Transportation Charge	2.9161 cents per m ³
e)	Gas Supply Charge (if applicable)	Schedule A
f)	Overrun Gas Charges:	

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:
 - a) The volume of gas for which the customer is willing to contract;
 - b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
 - c) Interruptible or curtailment provisions; and
 - d) Competition.
3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.6078 cents per m3 for firm gas and 6.2261 cents per m3 for interruptible gas.
4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 6.3319 cents per m3 and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

⁽¹⁾ Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Rate Availability

Rate BT1 is available to all customers or their agent who enter into a Receipt Contract for delivery of gas to EPCOR. The availability of this option is subject to EPCOR obtaining a satisfactory agreement or arrangement with Enbridge Gas Inc. and EPCOR's gas supplier for direct purchase volume and DCQ offsets.

Eligibility

All customers electing to purchase gas directly from a supplier other than EPCOR must enter into a Bundled T- Service Receipt Contract with EPCOR either directly or through their agent, for delivery of gas to EPCOR at a mutually acceptable delivery point.

Rate

For gas delivered to EPCOR at any point other than the Ontario Point of Delivery, EPCOR will charge a customer or their agent all approved tolls and charges incurred by EPCOR to transport the gas to the Ontario Point of Delivery.

Note:

Ontario Point of Delivery means Dawn or Parkway on the Enbridge Gas Inc. (Union South) System as agreed to by EPCOR and EPCOR's customer or their agent.

Effective: January 1, 2026

Implementation: All bills rendered on or after January 1, 2026
